PROPOSED TRASH & RECYCLING RATE CHANGES FOR FISCAL YEAR 2025

You are receiving this Notice because our records indicate that you are a City of Santa Barbara utility customer. This Notice describes the proposed trash and recycling rate changes, and explains how you can file a protest and participate in the process. Some customers are billed by the City for some, but not all, services. This Notice applies only to the services that appear on your bill from the City.

Trash & Recycling Revenue Requirement Increases

The proposed July 2, 2024 rate schedule increase for all sectors is a total of 1.9%.

Santa Barbara Rate Increases Effective July 2, 2024	
Hauler (MarBorg) Compensation	0.0%
Tipping Fee Increase (County)	2.8%
Other City Programs	-0.9%
TOTAL Change to Customer Charges	1.9%

How can I lower my trash bill?

In general, some customers may be able to lower their bills by “right-sizing” their service. Customers can make sure that they are diverting lower-cost recyclables from their higher-cost trash containers, increasing recycling service while decreasing trash service, if possible. Many Business and Large Residential (5+ unit) customers are also subscribed to more greenwaste service than they need, especially if they have landscapers that can self-haul trimmings instead of using greenwaste containers for disposal.

When do the new rates take effect?

City Council will consider adopting these rates on July 2, 2024 (one week after the public hearing). The new rates will be effective starting July 2, 2024.
