

GO GREEN THIS SPRING!

Santa Barbara Clean Energy will be your company's new green energy supplier starting March 2022. You will be able to effortlessly use clean electricity and enjoy local control with the same delivery from Edison. Our unique partnership between the City and Edison gives you choices for renewable electricity and reliable service, while reinvesting in Santa Barbara for a better climate future.

Santa Barbara Clean Energy
735 Anacapa Street
Santa Barbara, CA 93101

Santa Barbara Clean Energy (SBCE) will be your default provider for the energy portion of your electric service starting March 1, 2022. SCE continues to deliver power to your home or business, maintain the grid and all equipment, open and close accounts, provide billing and collection of payments, and provide customer service and field service (including during power outages). There are no changes to automatic payments or level rate pay plans.

You only need to take action if you want to opt out and remain a bundled SCE customer. To opt out, without penalty, you must call (805) 897-1979 or visit our website at www.SBCleanEnergy.com within 60 days of your March bill date. You may also call or visit our website for additional information.

Si le gustaría recibir este aviso en español, visite www.SBCleanEnergy.com o llame (805) 897-1979.

ENROLLMENT: Per Assembly Bill 117 you will be automatically enrolled in SBCE, unless you opt out, on your scheduled meter read date after March 1, 2022.

OPT OUT: You have the right to opt out of SBCE. If you decide to opt back in to SCE after the 60-day opt out period, SCE will charge a one-time account processing fee. By opting out, you will also be subject to SCE's then current rates, terms and conditions of service. For details on SCE's rates, terms and conditions, please visit sce.com. You will not be charged any fees if you opt out within the first 60 days after your automatic enrollment with SBCE or if you cancel electric service altogether (for example, if you move). If you opt out, you will still be charged for all electricity you used before the transfer of

electric service. Accounts will be transferred on the day the electric meter is read and cannot be transferred during the middle of a billing cycle. In order for your request to be processed on your next meter read date, your request must be received at least 5 business days prior to the date on which the meter is read. To opt out, please call SBCE or visit www.SBCleanEnergy.com. Have your electric bill handy so that we can process the request.

BILLING: Each month, SBCE customers receive a single monthly bill from SCE. This bill includes all recent electric charges, including SBCE's power generation charges. For your convenience, SCE forwards your payment for the power generation portion of the bill to SBCE. SCE will continue to charge you for the Transmission and Delivery services they provide. **FAILURE TO PAY:** SBCE may transfer your account to SCE upon 14 calendar days' written notice to you if you fail to pay any portion of the SBCE charges on your bill. If your service is transferred, you may be subject to additional requirements by SCE.

CARE PROGRAM: If you are currently enrolled in the California Alternative Rates for Energy (CARE) program, you will continue to receive all CARE benefits and discounts upon enrollment in SBCE. **TERMS AND CONDITIONS OF SERVICE:** SBCE electric generation rates are very competitive. Available rates can be reviewed at www.SBCleanEnergy.com or by calling (805) 897-1979. Any changes to SBCE rates will be adopted at duly noticed public meetings of the Santa Barbara City Council.

SCE also charges SBCE customers authorized fees for delivering power to your home or business and for providing other services. These components of your electric bill are the same whether you buy electricity from SBCE or SCE.

LET US SERVE YOU

Clean, Carbon-Free Electricity

As a local business, you choose to create a positive future for your family, employees, customers, and our community. We're here to support you with carbon-free electricity, and we make it easy!

Same Delivery From Edison

We source clean energy. Southern California Edison continues to deliver the electricity to your business, maintain electrical infrastructure, and send you one bill.

One Bill, More Transparency

One monthly bill will show you Edison's delivery charges and Santa Barbara Clean Energy's renewable electricity generation. Our green energy replaces Edison's previous generation charges. You will see both the infrastructure and delivery fees along with clean energy generation charges clearly.

Competitive Rates

Santa Barbara Clean Energy negotiates competitive pricing for significantly cleaner electricity. CARE/FERA/AMP/Medical Baseline customer benefits continue with no action required.

Public Accountability

Santa Barbara Clean Energy is locally run through the City of Santa Barbara. That means we don't pay profits to shareholders, decisions are made through public and transparent processes, and you can weigh in at City Hall.

Discounts & Incentives

As your partner in clean energy, we work to make it easy and save you money as you go green. We have discounts and incentives for electric vehicles, solar panels, battery storage systems, and ways to save energy and reduce your bills. Visit SBCleanEnergy.com to learn more.

Customer Service

Because Santa Barbara Clean Energy is a program developed by the community for the community, we serve as your local advocates. Call us anytime to discuss clean energy, ways to generate your own energy, or incentives we're working on for your business.

Top Green Options:

Santa Barbarans asked for clean energy, and 100% Green is the answer.

100% carbon-free, greenhouse gas-free energy for a small premium of \$0.012/kWh. To meet the City's goal of 100% carbon-free energy use and make an impact on climate change, most customers are enrolled in 100% Green.

Everyone can help!

Green Start offers more carbon-free energy than Edison's standard service but at the same rates. Customers with financial assistance or those who want to keep their billing rates the same can choose Green Start.

Next level solar...

Combine local energy generation through solar panels on your office with either 100% Green or Green Start. This is the rock star level of carbon-free electricity! NetMetering (solar) customers are automatically enrolled in Resilient paired with 100% Green.
