

HOW IT WORKS

In 2002, California Assembly Bill 117 gave local governments the option to provide electricity choices to reduce carbon dioxide emissions. This allows for a partnership between Santa Barbara Clean Energy and Edison to provide clean energy.

Santa Barbara buys and builds carbon-free energy

Edison continues to deliver energy to your home or business while maintaining poles and wires

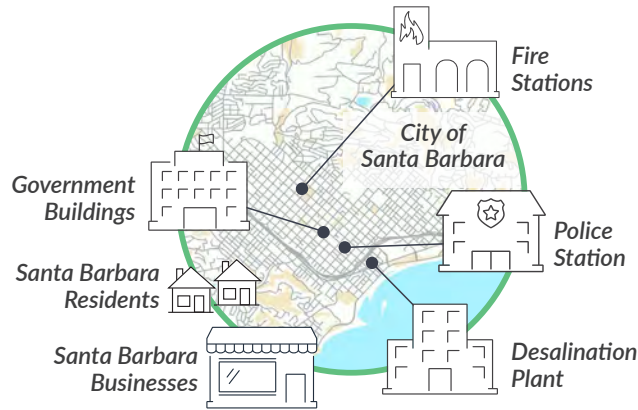

Local control, reliable & renewable electricity, cleaner air, better community

WHO IS ENROLLED?

Everyone in the City of Santa Barbara

Santa Barbara Clean Energy

CLEAN ENERGY
CHOOSING RENEWABLE ELECTRICITY

Santa Barbara Clean Energy gives us a choice in how much carbon-free and greenhouse gas-free electricity we use. By choosing clean energy, we can address climate change together!

Did you know Santa Barbara Clean Energy is your locally-controlled electricity provider?

This means Santa Barbarans can choose carbon-free energy, set electricity rates, and reinvest in our community while saving money with local energy programs.

Let's do this Together

Address climate change by reducing carbon dioxide emissions with Santa Barbara Clean Energy.

Santa Barbara Clean Energy (SBCE) is your default provider for the energy portion of your electric service. SCE continues to deliver power to your home or business, maintain the grid and all equipment, open and close accounts, provide billing and collection of payments, and provide customer service and field service (including during power outages). There are no changes to automatic payments or level rate pay plans.

You only need to take action if you want to opt out and remain a bundled SCE customer. To opt out, without penalty, you must call (805) 897-1979 or visit our website at www.SBCleanEnergy.com. You may also call or visit our website for additional information.

Si le gustaría recibir este aviso en español, visite www.SBCleanEnergy.com o llame (805) 897-1979.

ENROLLMENT: Per Assembly Bill 117 you were automatically enrolled in SBCE, unless you opted out, on your scheduled meter read date after October 1, 2021.

OPT OUT: You have the right to opt out of SBCE. If you decide to opt back in to SCE after the 60-day opt out period, SCE will charge a one-time account processing fee. By opting out, you will also be subject to SCE's then current rates, terms and conditions of service. For details on SCE's rates, terms and conditions, please visit sce.com. You will not be charged any fees if you opt out within the first 60 days after your automatic enrollment with SBCE or if you cancel electric service altogether (for example, if you move). If you opt out, you will still be charged for all electricity you used before the transfer of electric service. Accounts will be transferred on the day the electric meter is read and cannot be transferred during the middle of a billing cycle. In order for your request to be processed on your next meter read date, your request must be received at least 5 business days prior to the date on which the meter is read. To opt out, please call SBCE or visit www.SBCleanEnergy.com. Have your electric bill handy so that we can process the request.

BILLING: Each month, SBCE customers receive a single monthly bill from SCE. This bill includes all recent electric charges, including SBCE's power generation charges. For your convenience, SCE forwards your payment for the power generation portion of the bill to SBCE. SCE will continue to charge you for the Transmission and Delivery services they provide. **FAILURE TO PAY:** SBCE may transfer your account to SCE upon 14 calendar days' written notice to you if you fail to pay any portion of the SBCE charges on your bill. If your service is transferred, you may be subject to additional requirements by SCE.

CARE PROGRAM: If you are currently enrolled in the California Alternative Rates for Energy (CARE) program, you will continue to receive all CARE benefits and discounts upon enrollment in SBCE. **TERMS AND CONDITIONS OF SERVICE:** SBCE electric generation rates are very competitive. Available rates can be reviewed at www.SBCleanEnergy.com or by calling (805) 897-1979. Any changes to SBCE rates will be adopted at duly noticed public meetings of the Santa Barbara City Council.

SCE also charges SBCE customers authorized fees for delivering power to your home or business and for providing other services. These components of your electric bill are the same whether you buy electricity from SBCE or SCE.

Santa Barbara Clean Energy

Top Green Options:

Santa Barbarans asked for clean energy, and 100% Green is the answer.

100% carbon-free energy for about \$5 more/month (\$0.012/kWh). Most customers will be automatically enrolled in 100% Green.

Everyone can help the environment.

Green Start offers more carbon-free energy than SCE's standard service but at the exact same rates. Customers with financial assistance or those who want to keep their billing rates the same can choose Green Start.

Looking for the next level?

Resilient is local energy generation from solar panels on your home or office paired with either 100% Green or Green Start. Net Metering customers are enrolled in Resilient.
